

YPEA AMD 4/22

This amendment replaces YPEA AMD 03/22.

1 AIR7000 Airfield Works

1.1 Purpose

AIR7000 airfield works commenced at Pearce mid-February 2020. These works will initially place restrictions on accessing the 2FTS parking area and on taxiway Alpha and Bravo while a new apron area is constructed abeam the intersection of taxiway Alpha and Bravo. These restrictions affect the standard aircraft taxi routes for 2FTS. This amendment specifies new taxi routes.

1.2 Procedures

Regardless of duty runway, 2FTS aircraft located in the 'front lines' are to turn left when exiting parking and taxi via taxiway Zulu. 2FTS aircraft located in the 'rear lines' are to taxi via the centre invert. On call for taxi, aircraft are to notify ATC when located on the 'rear lines'. When the duty runway is runway 05, 2FTS aircraft are to taxi to taxiway Delta 4 via Delta vice Echo. 2FTS aircraft are to utilise the centre invert on all occasions when returning to the lines.

1.3 Expiry

This amendment is effective until cancelled or the AIR7000 apron works are completed.

2 Pearce Airspace QNH

2.1 Purpose

Due to an error in the latest addition of FIHA AD2 Supplement Pearce, the maximum altitude at which local QNH is to be retained is incorrect.

2.2 Procedures

Reference FIHA AD2 Supplement Pearce 3.7.1, local Pearce Airspace QNH should be retained when operating above 10 000FT, up to a maximum of A140 in PTAs A, B and C, including transit to outer training areas through R155AB or R156. This is vice A120.

2.3 Expiry

This amendment is effective until incorporated into the next addition of FIHA AD2 Supplement Pearce.

3 Waypoint amendments
