

**YMES AMEND 01/25**

**1. PURPOSE**

1.1 This amendment is required, as callsign EMBER has replaced CYGNET. Additional amendment to the wording of RLTS OPS Recovery procedure to align with ESL FLT LI's.

**2. PROCEDURES**

2.1 Amend OPS paragraph 5.3.5 with the following:

5.3.5 RRSS cannot be applied to aircraft using C/S EMBER on landing. Aircraft using C/S EMBER can PASSIVELY partake in RRSS in all circumstances on a **DRY** or **WET** runway.

2.3 Amend OPS paragraph 5.16.2 with the following:

5.16.2 If RLTS are not issued a visual approach immediately upon calling for an OPS RECOVERY, they shall descend IAW ATC instructions, track for the relevant initial point and contact ESL TWR at 10nm. ESL TWR will either issue the visual approach prior to the RLTS reaching the IP or advise holding instructions. ESL APP will have no restrictions at initial unless otherwise coordinated.

2.2 Amend OPS paragraph 5.17.5 with the following:

5.17.5 Aircraft using C/S EMBER are not to conduct Touch and Go's from a glide CCT or HK. They will be 'CLEARED FOR THE OPTION' for these approaches.

**3. EXPIRY**

3.1 This AMD will automatically cancel when incorporated into the next YMES FIHA AD2 SUPP.
