

YWLM AMD 02/26

1 Purpose

This amendment incorporates changes to Ship Transfer altitudes by day, following a requirement to facilitate operations in inclement weather. WLM FIHA AD2 SUPP clause 2.4, currently describes a transit and airspace occupation altitude of not above 1000FT AMSL by day and 1500FT AMSL by night. In order for company aircraft to receive an improved service, the required altitude is now not above 1500FT AMSL by day and night.

2 Amendment Instructions

Amend excerpt within clause 2.4 – Ship Transfer Airspace

Operations are conducted by day and night not above 1500FT AMSL.

3 Cancellation

This amendment will be cancelled when incorporated within the next iteration of WLM AD2 SUPP.
