Aeronautical Information Bulletin (AIB) 002/2025

Issue date: 15 May 25

**AIB Dissemination. AIS-AF Charting Constraints. NGA DoD FLIP Planning Books. Civilian IFP. PCR/ACR Transition. International Products. FIHA AD2 SUP. AIB Distribution.**

### 1. AIB Dissemination

1.1 The AIB may at times contain information that is **critical to flight safety**. Unit PUBSOs are required to disseminate the AIB as widely as possible to relevant staff at their unit particularly aircrew, safety/standards teams, and unit execs.

### 2. AIS-AF Charting Constraints

2.1 Due to exercise support, reduced manning and system updates AIS-AF Charting Section will be unable to fulfil normal AIRAC Cycle Charting support. Users of routine APMs and Auth Maps may experience delays or product unavailability until the 2512 cycle.

2.2 Users with new requests for charting products are advised to seek already existing products through ASI-AF Operations ([ais.af@defence.gov.au](mailto:ais.af@defence.gov.au)).

### 3. NGA DoD FLIP Planning Books

3.1 Users of NGA DoD FLIP Planning Books are to note their gradual transition to softcopy only over the coming months ending Jun 25.

3.2 All current NGA DoD FLIP products are available through the NGA's Aeronautical Content Exploitation System (ACES) 1.5. For those unfamiliar with ACES 1.5, contact AIS-AF Operations ([ais.af@defence.gov.au](mailto:ais.af@defence.gov.au)) for an ACES 1.5 User Guide.

### 4. Civilian IFP

4.1 Global Airspace Solutions (GAS) are a civilian Instrument Flight Procedures (IFP) designer that have been contracted to produce IFP at military aerodromes suitable for both military and civilian operators.

4.2 These new IFP are to be published initially via AIP SUP for incorporation into DAP E/W. AIS-AF will be liaising with local ATC/Standards to ensure local units are aware of the changes.

## 5. PCR/ACR Transition

5.1 NOTAMs are underway for PCR/ACR transitions into ERSA. ACR/PCR changes to other AIP will be occurring in the AIRAC 2506 cycle.

5.2 See Aeronautical Information Circular (AIC) H38/24 at [AsA AIP SUP and AIC](#).

## 6. International Products

### 6.1 Butterworth International Terminal Procedures (WMKB ITP)

6.2 WMKB ITP dated 17 Apr 25 remains valid WEF 17 Apr 25. The only change has been the addition of Para 4 on Page 2, SI approaches Circling Minima only when a DT promulgated by NOTAM.

6.3 The Butterworth IFG (produced by the RMAF) is reviewed each calendar month, with updates to the ITP normally promulgated outside the AIRAC cycle. Due to differences in cyclical production with EFB Data Service Providers and Aircraft Nav databases, **AIS-AF strongly recommends all users check the AIS-AF web-portal to determine if there is an updated product and refer to AUS HO NOTAMs for critical amendment advice.**

6.4 Papua New Guinea MSA/VSA Chart dated WEF 16 Jun 22 remains valid

It remains the user's responsibility to ensure they are using current versions and to be aware of any amendments. Current FIHA AD2 Supplements and any Next/Amendments may be viewed at any time on the AIS-AF web-portal.

**8. AIB Distribution**

8.1 The distribution lists AIS-AF uses to share the AIB relies on users updating AIS-AF to those who may wish to be included on the distribution lists, and those who no longer have a requirement for the AIB. Can those users who no longer wish to receive the AIB, those who have an updated email address for the AIB, or those who know of users who need to be included, email the AIS-AF Ops Group Inbox, [ais.af@defence.gov.au](mailto:ais.af@defence.gov.au).
