Aeronautical Information Bulletin (AIB) 006/2025

Issue date: 14 Nov 25

AIB Dissemination. AIS-AF Routine Production over Stand-Down Period. NGA Feedback. ERSA/ERSI Data Changes. AI User – Risk Management. International Products. FIHA AD2 SUP. AIB Distribution. Amendment to AIB 005/2025 published 12 Nov 25.

1. AIB Dissemination

1.1 The AIB may at times contain information that is **critical to flight safety**. Unit PUBSOs are required to disseminate the AIB as widely as possible to relevant staff at their unit particularly aircrew, safety/standards teams, and unit execs.

2. Changes and delays to Routine Products – 2512 to 2601 AIRAC Cycles

2.1 **2512 Charting.** AIS-AF is predicting possible delays and/or non-production of 2512 cycle APM and Auth Maps. If there is a critical need for any particular chart, please contact AIS-AF Ops ASAP for prioritisation assessments.

2.2 **AIS-AF Routine Production over Stand-Down Period.** Users of AIS-AF Routine Products are to note the following variations to the 2513 to 2601 AIRAC Cycle release dates and exclusions:

- a. 2513 Cycle will be produced as per normal WEF 25 Dec 25
- b. 2513 Cycle web portal updates will occur on 24 Dec 25
- c. 2513 Cycle will not include an Electronic Terrain and Obstacle Data (eTOD) update.
- d. 2601 Cycle will not contain an En-Route Supplement International (ERSI) update.

2.3 **ERSA/ERSI Data Changes.** In line with Airservices desires for AIP to be in line with ICAO Standards, users of ERSA/ERSI will note the removal of PSI from ERSA/ERSI entries as of the 2512 cycle. AIS-AF will remove PSI from ADF aerodrome entries when requests for ERSA amendments of ADF aerodromes are actioned. AIS-AF will update ERSI prior to the 2512 cycle.

2.4 **TERMA MSA/VSA Chart.** Note a removal of MSA/VSA Charts from the 2512 TERMA. This removal is temporary with intent to republish in 2603 TERMA.

3. NGA Feedback

3.1 IAW with the above transition, users will need to migrate from hardcopy FLIP to electronic FLIP no later than 30 September 2027, CONUS MIM no later than 30 September 2028 and EVCs/all remaining aeronautical, maritime, geographic, topographic, and geomatics products no later than 30 September 2032.

4. AI User – Risk Management

4.1 The AIS Risk Register contains risks associated with the production and distribution of AI Publications (AIP). MAO's and other AIP customers are required to review the register to determine if there are risks applicable to certain aircraft types or operational conditions, in particular the **Recommendations to AI product users** column, and ensure appropriate risk management is conducted. Note that the risk classifications are for guidance only.

5. International Products

5.1 **Butterworth International Terminal Procedures (WMKB ITP)**. WMKB ITP dated 17 Apr 25 remains valid WEF 17 Apr 25. The only change has been the addition of Para 4 on Page 2, SI approaches Circling Minima only when a DT promulgated by NOTAM.

5.2 **Butterworth In Flight Guide (IFG)**. The Butterworth IFG (produced by the RMAF) is reviewed each calendar month, with updates to the ITP normally promulgated outside the AIRAC cycle. Due to differences in cyclical production with EFB Data Service Providers and Aircraft Nav databases, AIS-AF distribute directly on a case-by-case basis. If customers are needing access to this product, please contact AIS-AF Ops.

5.3 **Papua New Guinea MSA/VSA Chart** dated WEF 16 Jun 22 remains valid.

6. FIHA AD2 Supplements

6.2 The next FIHA AD2 SUPP cycle is 27 Nov 25 (AIRAC 2512 cycle) **with cut-off occurring one week earlier (unless agreement between AD2 SUP content owner and AIS-AF)**. Users should ensure their particular EFB Application provider has loaded the current FIHA AD2 Supplements. It remains the user's responsibility to ensure they are using current versions and to be aware of any

amendments. Current FIHA AD2 Supplements and any Next/Amendments may be viewed at any time on the AIS-AF web-portal.

7. AIS-AF Stand Down. AIS-AF Stand Down period will occur from 25 Dec to 04 Jan. During this period, the unit will maintain a core capability to action urgent obstacles assessments (without review function), IFP NOTAMs, IAIP PERM NOTAMs, critical RFIs and product dissemination. Task requests must be communicated via the duty mobile, as AIS-AF inbox emails will have limited monitoring.

8. SharePoint. The AIS-AF webpage has transitioned to SharePoint: [AIS -Air Force - Home](#).

9. AIB Distribution

9.1 The distribution lists AIS-AF uses to share the AIB relies on users updating AIS-AF to those who may wish to be included on the distribution lists, and those who no longer have a requirement for the AIB. Can those users who no longer wish to receive the AIB, those who have an updated email address for the AIB, or those who know of users who need to be included, email the AIS-AF Ops Group Inbox, ais.af@defence.gov.au.
