

Aeronautical Information Service - Air Force

Aeronautical Information Bulletin (AIB) 008/2024

Issue date: 31 JUL 24

AIB Dissemination. DAFIF/AusDAFIF JMPS Load Errors.

1. AIB Dissemination

1.1 The AIB may at times contain information that is **critical to flight safety**. Unit PUBSOs are required to disseminate the AIB as widely as possible to relevant staff at their unit particularly aircrew, safety/standards teams, and unit execs.

2. DAFIF/AusDAFIF JMPS Load Errors

2.1 JMPS users are to anticipate some APPC table load errors when loading both the DAFIF and AusDAFIF products. AIS-AF advice is to ignore the APPC table load errors until further notice and follow any directions from JMPS software developers/support. Do **not** manually alter the DAFIF/AusDAFIF product if it can at all be avoided.

2.2 **Manually updating DAFIF/AusDAFIF could potentially result in data errors impacting mission planning and flight safety.**

2.3 USAF JMPS development team is working on a software update, however, AIS-AF has no visibility on when this will become available.

3. For further information, please contact:

3.1 AIS-AF Air Liaison Officer
03 8531 6667
Duty Mob: +61 412 814 225
Email: ais.af@defence.gov.au

4. Cancellation

4.1 This AIB remains effective until superseded by the next edition.

5. Distribution

5.1 Widest possible dissemination amongst AI users.
